

The sunny study of a recently completed project in Hillsborough.

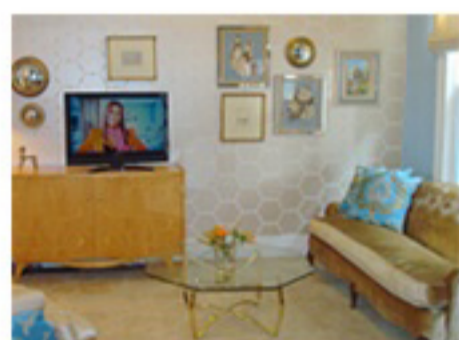

Dear Friends,

Happy New Year. I hope this finds you all happy, healthy and restored after the holidays. We're looking forward to embarking on new design adventures in 2009 and wanted to share the latest from Coddington Design with you.

Cheers,

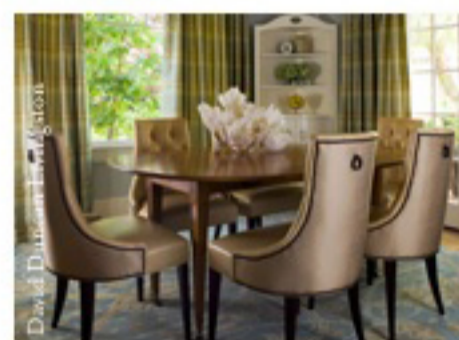

Melanie

Coddington Design has completed the design of a residence for a family of five in Hillsborough. The Mediterranean-style home features fresh color, antiques, mid-century pieces and Melanie's signature custom furnishings. The property also features stunning landscape design by Bernard Trainor + Associates.

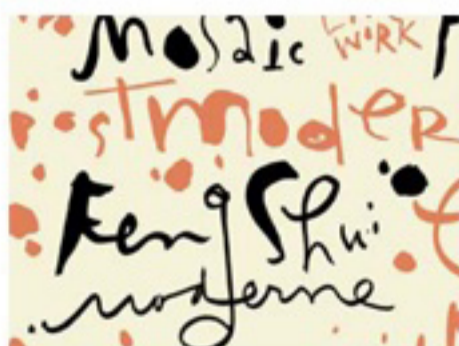

The stylish salon at Chez Coddington

// Melanie's own Potrero Hill residence has also undergone a chic transformation. The "girly-meets-modern" space features her collection of vintage furniture paired with bold modern art, as well as a shimmering, built-in bar and pink walk-in closet (Hello, shoes!).

Palo Alto Dining Room

// Coddington Design is excited to embark on the design and remodel of a stylish Palo Alto home; highlights include a state-of-the-art kitchen and a master bath suite featuring a lavish, laser-cut onyx and marble floor.

Design SF 2009

// Please join us at **Design San Francisco 2009**, where Melanie will appear on the panel "Trendy vs. Timeless Design." Presented by California Home & Design, the event will feature a lively discussion on incorporating the latest trends into enduring interiors.
